WĪM

WELLNESS IN MOTION

GOOD ENERGY · STRONG WOMEN · REAL LIFE

Our miracle lies in serving others, our strength lies in growing together, and our joy lies in the journey.

SAMANTHA WAGENAAR

Your Training Program

SAMANTHA WAGENAAR · PERSONAL TRAINER · DE AAR

Four training days a week, with active rest days in between. Each move shows its start position (faded) and end position, with three simple cues. Open the WIM app on your phone to watch every move in motion and to use the interval timer.

REPS	SUPERSET (SS)	TEMPO
12–15 per move, unless you progressively overload	Do A then B back to back, then rest	3s down · 0s up on lower body

Listen to your body, warm up before every session. Stop any exercise that causes pain.

DAY 1 · STRENGTH

Lower Body

12–15 reps, unless you progressively overload · 3–4 sets · Tempo: 3s down · 0s up

Warm-up

Before you start

Bodyweight Squat

BODYWEIGHT

1. Feet shoulder-width apart, arms forward for balance.
2. Sit back and down, chest proud.
3. Stand tall and squeeze your glutes.

Reverse Lunge

BODYWEIGHT

1. Stand tall, then step one foot back.
2. Lower slowly until both knees are at about 90°, weight in the front heel.
3. Push through the front foot to return. Alternate legs.

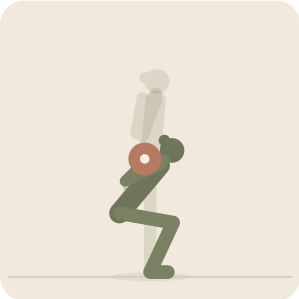

Leg Swings

WALL OR RAIL FOR BALANCE

1. Hold a wall or rail for balance.
2. Swing one leg forward and back in a relaxed arc.
3. Gradually increase the range, then switch legs.

Circuit 1

Superset: A then B

A Barbell Back Squat

BARBELL

1. Rest the bar across your upper back, feet shoulder-width apart.
2. Sit back and down for 3 counts, chest proud, knees tracking over your toes.
3. Drive up through your whole foot to stand tall.

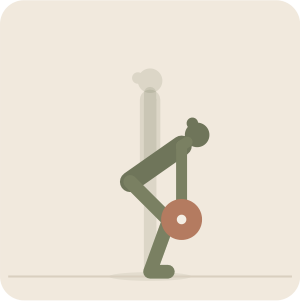

B Reverse Lunge

BODYWEIGHT

1. Stand tall, then step one foot back.
2. Lower slowly until both knees are at about 90°, weight in the front heel.
3. Push through the front foot to return. Alternate legs.

Circuit 2

Superset: A then B

A Barbell Deadlift

BARBELL

1. Bar close to your shins, hip-width stance, back flat.
2. Hinge at the hips and lower the bar slowly along your legs.
3. Squeeze your glutes to stand tall at the top.

B Standing Resistance Band Squeeze

RESISTANCE BAND

1. Band just above your knees, feet hip-width apart, knees softly bent.
2. Push your knees out against the band and squeeze your glutes.
3. Hold for a count, then release with control.

Circuit 3

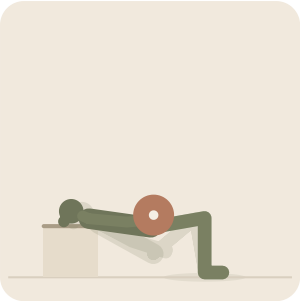

Superset: A then B

A Leg Press

LEG PRESS MACHINE

1. Feet hip-width on the platform, lower back against the seat.
2. Lower the platform slowly for 3 counts until your knees reach about 90°.
3. Press away without locking your knees.

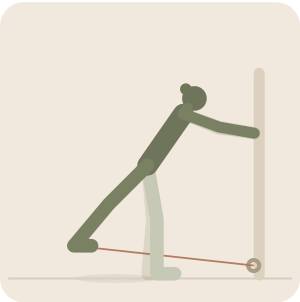

B Hip Thrust

BARBELL · BENCH

1. Upper back on the bench, bar padded across your hips.
2. Drive through your heels until your body is level from shoulders to knees.
3. Tuck your chin, squeeze your glutes, then lower with control.

Circuit 4

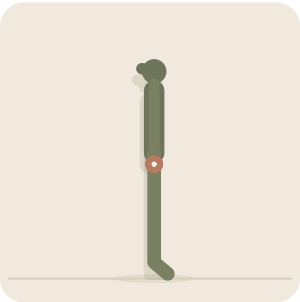

Superset: A then B

A Cable Kickback

CABLE MACHINE · ANKLE STRAP

1. Ankle strap on, hold the machine and hinge slightly forward.
2. Kick your leg straight back, leading with the heel.
3. Squeeze at the top and return slowly. Repeat on both sides.

B Standing Calf Raise

DUMBBELLS

1. Stand tall with weights at your sides.
2. Rise onto the balls of your feet as high as you can.
3. Pause, then lower your heels slowly.

Finisher

Superset: A then B

A Ab Crunch

MAT

1. Lie on your back, knees bent, fingertips lightly behind your head.
2. Breathe out and curl your shoulders off the floor.
3. Lower slowly and keep your neck relaxed.

B Reverse Crunch

MAT

1. Lie flat with knees bent at 90° over your hips.
2. Curl your knees toward your chest, lifting your hips slightly.
3. Lower slowly without letting your feet drop.

DAY 2 · STRENGTH

Upper Body

12–15 reps, unless you progressively overload · 3–4 sets

Warm-up

Before you start

Arm Circles

BODYWEIGHT

1. Stand tall with your arms extended.
2. Make slow, controlled circles.
3. Reverse direction halfway through.

Banded Pull-apart

RESISTANCE BAND

1. Hold a band at shoulder height, arms straight.
2. Pull the band apart until it reaches your chest.
3. Return slowly.

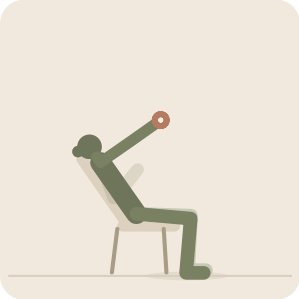

Cat-Cow Stretch

MAT

1. Hands under your shoulders, knees under your hips.
2. Round your back up toward the ceiling (cat).
3. Drop your belly and lift your chest (cow), moving with your breath.

Circuit 1

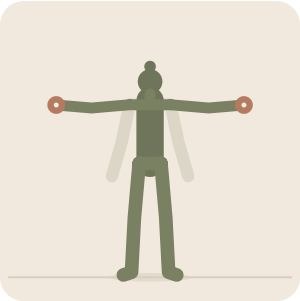

Superset: A then B

A Incline Dumbbell Chest Press

DUMBBELLS · INCLINE BENCH

1. Bench on a low incline, dumbbells at chest level.
2. Press up until your arms are straight.
3. Lower slowly to the sides of your chest.

B Dumbbell Lateral Raise

DUMBBELLS

1. Stand tall with a soft bend in your elbows.
2. Lift the dumbbells out to the sides to shoulder height.
3. Lower slowly and keep your shoulders down.

Circuit 2

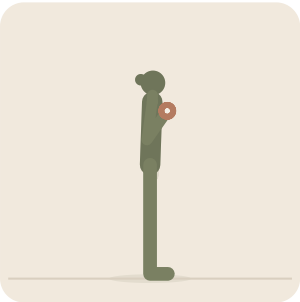

Superset: A then B

A Seated Cable Row

CABLE MACHINE

1. Sit tall, feet on the platform, knees slightly bent.
2. Pull the handle to your waist, squeezing your shoulder blades together.
3. Extend your arms slowly without rounding your back.

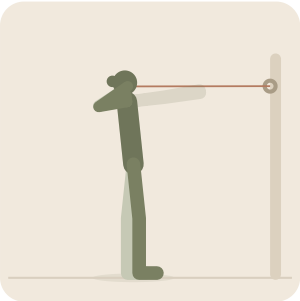

B Dumbbell Hammer Curl

DUMBBELLS

1. Palms facing each other, elbows close to your sides.
2. Curl the dumbbells up without swinging.
3. Lower slowly to full extension.

Circuit 3

Superset: A then B

A Cable Face Pull

CABLE MACHINE · ROPE

1. Set the rope at about head height and step back.
2. Pull toward your face with elbows high and wide.
3. Squeeze your upper back, then return slowly.

B Cable Tricep Push-down

CABLE MACHINE

1. Elbows pinned to your sides, slight forward lean.
2. Push the handle down until your arms are straight.
3. Let it rise slowly; only your forearms move.

Circuit 4

Superset: A then B

A Push-up

BODYWEIGHT

1. Hands under your shoulders, body in one straight line.
2. Lower your chest toward the floor, elbows angled back.
3. Push away. Drop to your knees if you need to.

B Side Plank Rotation

MAT

1. Elbow under your shoulder, hips lifted, top arm to the ceiling.
2. Rotate and thread your top arm under your body.
3. Open back up, keeping your hips high. Repeat on both sides.

DAY 3 · CONDITIONING

Metabolic Conditioning

Work 40 seconds · rest 20 seconds · then move to the next exercise

Intervals

In order

1 Rowing Machine

ROWING MACHINE

1. Strap your feet in, knees bent, arms long and back tall.
2. Push with your legs first, then lean back slightly and pull the handle to your lower ribs.
3. Return in reverse: arms, then body, then legs.

2 Battle Ropes

BATTLE ROPES

1. Soft knees, hips back, chest up.
2. Alternate your arms quickly to send waves down the ropes.
3. Keep your core braced and breathe.

3 Weighted Step-up

DUMBBELLS · STEP OR BOX

1. Weights at your sides, whole foot on the step.
2. Drive through the top foot to stand tall on the step.
3. Step down with control. Alternate legs.

4 Air Bike

AIR BIKE

1. Seat at hip height, back tall.
2. Push and pull the handles as you pedal.
3. Keep a strong pace for the full 40 seconds.

5 Wall Ball Slam

SLAM BALL

1. Hold the ball with feet shoulder-width apart.
2. Reach the ball overhead, rising tall.
3. Slam it down hard, hinging at the hips. Pick up and repeat.

6 Weighted Around the World + High-Knee Crunch

WEIGHT PLATE

1. Hold a weight plate with both hands.
2. Circle it around your head once, core tight.
3. Bring it down as you drive one knee up. Alternate knees.

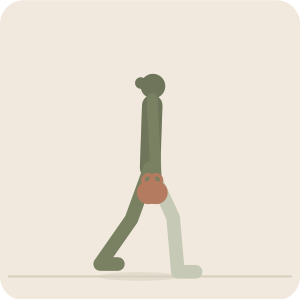

DAY 4 · STRENGTH & CONDITIONING

Full Body

12–15 reps, unless you progressively overload · 3–4 rounds

Circuit

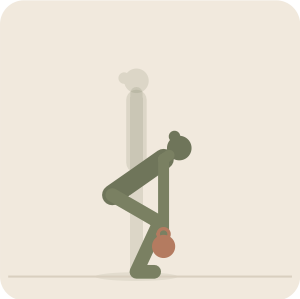

In order

1 Farmer's Carry

KETTLEBELLS OR DUMBBELLS

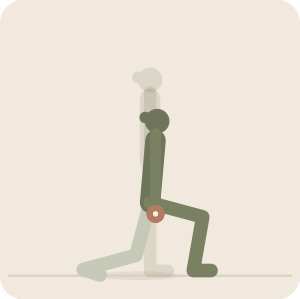

1. A heavy weight in each hand, shoulders back and down.
2. Walk with short, steady steps, chest tall.
3. Brace your core and keep the weights still.

2 Kettlebell Deadlift

KETTLEBELL

1. Kettlebell between your feet, hip-width stance.
2. Hinge back with a flat back and grip the handle.
3. Drive your hips forward to stand tall.

3 Weighted Walking Lunge

DUMBBELLS

1. Weights at your sides, torso upright.
2. Step forward and lower until both knees are at about 90°.
3. Push through the front heel and step into the next lunge.

4 Snatch

KETTLEBELL OR DUMBBELL

1. Hinge and swing the weight back between your legs.
2. Drive your hips forward and pull the weight up close to your body.
3. Punch it overhead, then lower with control. Switch sides.

5 Burpee

BODYWEIGHT

1. From standing, squat and place your hands on the floor.
2. Jump or step your feet back to a plank, then back in.
3. Stand up and jump, reaching your arms overhead.

BONUS · ADD TO ANY DAY

Additional Ab Workout

12–15 reps, unless you progressively overload · 3–4 sets

Circuit

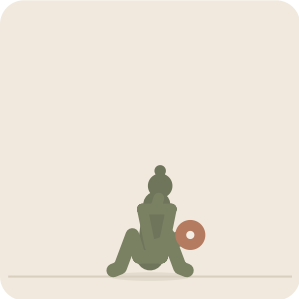

In order

1 Dumbbell Crunch

DUMBBELL · MAT

1. Lie on your back holding a dumbbell above your chest.
2. Curl up, reaching the weight toward the ceiling.
3. Lower slowly with control.

2 Russian Twist

WEIGHT PLATE · MAT

1. Sit tall with knees bent and lean back slightly.
2. Rotate your torso to bring the weight from side to side.
3. Lift your feet for an extra challenge.

3 Reverse Crunch

MAT

1. Lie flat with knees bent at 90° over your hips.
2. Curl your knees toward your chest, lifting your hips slightly.
3. Lower slowly without letting your feet drop.

4 Elbow Plank Step-out

MAT

1. Elbows under your shoulders, body in one straight line.
2. Step one foot out to the side, then the other.
3. Step back in. Keep your hips level the whole time.

BETWEEN TRAINING DAYS

Active rest day

Easy effort · Move for enjoyment

Rest days help your body recover and come back stronger. Choose something you enjoy and keep moving gently.

Walking

An easy walk outdoors, on your own or with a friend.

Dancing

Put on music you love and move freely.

Swimming

Gentle laps or time in the water to loosen up.

Hiking

Get out on a trail and enjoy the fresh air.

Running

A light, conversational-pace jog.

Cycling

A relaxed ride around town or on a stationary bike.

Stretching

Slow, gentle stretches to help your body recover.
